WHY JOIN VAHP:

The Virginia Association of Health Plans (VAHP) is the state trade association for health plans in Virginia. VAHP gives Virginia's health plans a voice in promoting quality and affordable health care through advocacy, communications, education, and research.

VAHP develops and promotes a legislative and regulatory agenda that advances the successful operation of health plans in the Commonwealth. We are actively involved in policy development and issues analysis during the Virginia General Assembly and throughout the year. The Association also facilitates political involvement through a political action committee (PAC) to support candidates who are committed to preserving quality, affordable health care.

VAHP collaborates with other health organizations to foster progressive partnerships that will help accomplish our mission. We pursue constructive dialogue and joint efforts with provider organizations, health associations, employer groups, and state health agencies to promote discussion of current health policy issues. VAHP uses its Charitable Fund to demonstrate the commitment of the Association to the community by sponsoring health-related community activities.

VAHP serves as a forum for the education of member health plans about current, relevant issues and regulatory changes. In addition, VAHP issues position statements for and educates legislators on health care and insurance issues.

VAHP serves as a resource to state and local legislators, regulators and other officials involved in the planning and development of laws and regulations affecting the operation of health plans in Virginia.

Virginia's Capitol houses the oldest elected legislative body in North America, the Virginia General Assembly, first established as the House of Burgesses in 1619. The Capitol was designed in 1785 by Thomas while he served as U. S. Minister to France and is known as 'Jefferson's Temple on the Hill.'
